Scala for D.S Practical

Practical - 20

Roll No. :S039	Name: Divyanshu singh
Class :SY-Bsc.IT	Batch : 00
Date of Assignment :-11-08-2026	Date/Time of Submission : 18-08-2026

AIM:

Read a CSV file and calculate basic statistics for each numeric column. Use the scala-csv library or similar tools.

Code:

```

import scala.io.Source

object Demo20 extends App {
  val file = Source.fromResource("Iris.csv")
  val data = file.getLines()
    .drop(1)
    .map(line => line.split(",")(0).toDouble)
    .toList

  file.close()

  val count = data.length
  val mean = data.sum / count
  val min = data.min
  val max = data.max

  val variance = data.map(x => math.pow(x - mean, 2)).sum / count

  val std = math.sqrt(variance)

  println(s"Count: $count")
  println(f"Mean: $mean%.2f")
  println(f"Minimum: $min%.2f")
  println(f"Maximum: $max%.2f")
  println(f"Standard Deviation: $std%.2f")
  println("\nDivyanshu Singh S039")
}

```

Output:

```

Run Demo20 x
"C:\Program Files\Java\jdk1.8.0_181\bin\java.exe" ...
Count: 150
Mean: 75.50
Minimum: 1.00
Maximum: 150.00
Standard Deviation: 43.30
Divyanshu Singh S039
Process finished with exit code 0
